

ACE Approved Centres

The following is a list of centres approved to deliver qualifications covered by the ACE Initiative.

Centre contact details and the qualifications they deliver are supplied. Please note that many centres can deliver throughout the UK - not just in their immediate region, so please contact them for further details. Centres are continually being approved for qualifications so please enquire if the qualification you require is not listed for a specific centre.

Your ECITB Account Manager will be very happy to help you find the most appropriate centre to work with you, but companies will have to negotiate their own contract with the centre.

These centres are currently active with ACE candidates:
